

DART

Deployed Appraiser Response Team

**CERTAINTY
DURING TIME
OF CHAOS.**

COUNT ON SCA

SCA Claims, a national leader in providing auto damage appraisals, would like to extend an invitation to be an integral part of our revitalized catastrophe program which we call DART (Deployed Appraiser Response Team). We are looking to partner with a talented group of professional appraisers willing and able to deploy to a CAT event within 48 hours of notice. Our APD insurance clients count on us to be able to service their needs during the most critical time of the year: storm season.

WHY SCA?

Our company has serviced the auto insurance community for over 35 years. Since 1979, hundreds of carriers have relied on us to provide an exceptional claims experience to their policy holders. In 2014, we created our catastrophe program with the purpose of providing a more complete solution for our clients. Our DART coordinator maintains listings of approved, deployable appraisers nationwide who can be on the ground at storm-central within 48 hours of the weather event. This level of urgency is what our customers have come to expect when using SCA Claim Services.

PROGRAM DETAILS

Unlike a traditional CAT company who needs the next storm to stay in business, our DART program is flexible and allows for a much more balanced work-life experience.

WE OFFER:

-  Guaranteed minimum of 1 week deployment - longer intervals available based upon need and your availability
-  Flat daily rates or per assignment rates available
-  Additional compensation for DART on-site lead/coordinator
-  Alternative inspections methods such as virtual inspections, desk reviews, and drive-ins can be utilized, when possible, to increase productivity
-  Dedicated IT support, material damage assistance, instantaneous assignment dispatch, and invoicing teams are ready to help when needed
-  Our corporate office staff will coordinate the logistics so that you can concentrate on the appraisals and the customer experience

Important disclaimer: Please note that all appraisers are independently owned and operated businesses that should currently hold all appropriate licenses/certificates required by state law

YOU MAKE THE DIFFERENCE

As a seasoned appraisal professional, you understand the demands and expectations of both an insurance carrier and a vehicle owner during a catastrophe. We want to build onto your expertise a rock solid foundation of technology and teamwork to form a relationship that will be stronger than any storm. We need professionals, like you, who are also compassionate and eager to get owners back on the road in a timely manner.

NOT JUST CAT

There is a year-round need for deployable appraisers, it's not reserved for just CAT situations. At SCA, we are often called to take the place of staff appraisers around holidays and during vacations. Since we are busy year-round our DART appraisers are kept busy servicing areas experiencing a higher than anticipated surge of claim volume. If your skill set includes multiple state licenses this greatly increases your possible opportunity to make some additional income.

PRICING

For an industry that has not increased rates in decades we strive to provide very competitive and guaranteed compensation to go along with assignment consistency year-round to our DART appraisers. We offer premium daily rates if non-field inspections are required. These include but are not limited to: virtual inspections, desk reviews, and drive-in inspections. For field inspections, we offer competitive per-assignment rates. Our goal is to ensure that our assignments have your priority by offering higher rates and more work.
